

# SAFETY BRIEFING

## Revolve24 The Bend 2022

Organised under the Rules and Regulations of AusCycling

SAFETY BRIEFING

**SAFETY** is our primary concern over the course of the weekend.

All riders must take **PERSONAL RESPONSIBILITY** for their part in making the event safe for all participants.

Any riding that puts other participants **AT RISK** will not be tolerated.

# PIT LANE

- 20 kph maximum speed
- Transitions to take place at white line in front of pit garage
- No running pushes in transition
- Do not obstruct other participants

# PENALTIES

- May be imposed for pit lane speeding
- May be imposed for dangerous riding
- May be imposed for breach of the event and race regulations (available online)

# ON THE CIRCUIT

- Passing other riders and groups must be done safely. Give each other room
- The circuit includes several high-speed corners, ensure you ride within your ability
- Weather can be changeable, adjust your riding accordingly
- There will be some recumbent riders on track – please give them space
- Ability of participants may vary, please ride accordingly
- One rider per team on the circuit at any time (except for the final half an hour of the 24Hr Challenge)

# WARNING LIGHTS DURING THE EVENT

- The Bend has a CCTV system which monitors the track.  
**YELLOW FLASHING LIGHTS** indicates an incident
- If **YELLOW FLASHING LIGHTS**, riders should continue to circulate slowly and safely around the circuit
- **RED LIGHTS** indicate that the event has been stopped, riders should continue slowly back to the pits and await further instructions

# LIGHTING

- Front and rear lights are obligatory during the hours of darkness, no flashing lights
- Powerful front lights, and low powered rear lights are recommended

# OTHER DEVICES

- On-board cameras are permitted
- Rider radios and other communications devices are not permitted
- Earphones are not permitted

# YOUR OWN WELLBEING

Pay attention to your physical condition throughout the event, you can ride as much or as little as you want

- Make sure you pay attention to your own state of tiredness, and rest accordingly
- Make sure you eat and drink well throughout the event
- Never take risks, when you are most tired is when accidents can occur
